

Upper school home learning

Monday 27th April 2020

Maths Tasks

- Log on to the website below and complete the 5 maths questions set each day (Scroll down to find April). There are 4 different levels – silver is a good place to start but you can decide if you need more or less of a challenge. If you need more to do, then you can scroll down to find questions for every day in September to December too. <https://corbettmathsprimary.com/5-a-day/>
- Play countdown using the link below. The aim is to make the target number using the other given numbers and the four operations (+ - x ÷) <http://www.maths-resources.com/countdown/practise.html#numbers>

- Go outside (or in your house) and see how many different shapes you can see. How many regular and irregular shapes are there? Remember, regular means all the sides and angles are the same. Keep a tally of the shapes.

Reading Tasks

- Keep reading!
- Have a go at one of the reading comprehension here on today's section of the home learning on the school website. You do not need to complete both although you can if you want to. Choose the one which you like the look of best and you may find one easier than the other. Remember to read the questions first, and then read the text so you know the answers you are looking for. The answers are there for you too.
- Draw and label a character from the book you are reading: think about their feelings, physical description and personality. What have you learnt about the character from the story so far?

Spelling Tasks

- Use the link below but this time play a countdown spelling game – pick your letters and see what words you can make.

<http://www.maths-resources.com/countdown/practise.html#>

Here are is a board if you don't have access to the internet.

Writing Tasks

- Continue to practise your typing [here](#) (Google – Dance Mat Typing).
- **The current lockdown is having a positive impact on the environment.** What do you think of the statement above? Do you think it is true or false? Write a response to the question backing up your ideas with evidence.
- <https://www.youtube.com/watch?v=WjqiU5FgsYc>
Watch The Present (link above). Retell the story in your own words. Why do you think the boy behaved as he did when he first saw his present? Think back to the most exciting present you have ever received. What made it so special?
